In Rusty Geller’s new book *Americans’ Survival Guide to Australia*, he creates a must-have travel guide and familiarizes readers with the great outback. Through his personal accounts and experiences, readers are given a clear depiction of Australia and how to best enjoy what it has to offer.

Rusty Geller explains many of his own adventures adapting to Australian life, culture, and geography. The book helps readers to avoid the inevitable insecurities of being in a new place. Along with the mistakes the Geller family makes upon their arrival in Australia, come funny and interesting stories and solutions. *Americans’ Survival Guide to Australia* provides entertainment, while educating readers about what awaits them in Australia.

The book also contains a 1,500 word Australian-American dictionary for readers to learn the common, everyday language of the locals. Learning the language in advance puts travelers at ease and creates a desire to become versed in other aspects of Australian culture. This book is an essential tool for all travelers to Australia, whether it is for pleasure or business.

Rusty Geller firmly believes that life is an adventure and clearly expresses this through his underwater photography and movie filming. He has known since a very young age that movie producing is a passion of his. He went to USC and earned a BA in Telecommunications, and to Columbia College where he received an MA in Cinema. Rusty Geller’s love for the ocean led him to underwater photography.

He spent the first 25 years of his career shooting film, first in the optical effects lab, then underwater, then as a Steadicam operator. Besides shooting Steadicam for the Hollywood Studios, Rusty Geller invested in Digital Video, and is now shooting his own projects: documentaries, corporate video and cable commercials. He is now offering these services in Western Australia. To learn more about Rusty Geller, visit his impressive website, www.rustygeller.com.
